

Reflection Paper: Apply conflict analysis tools to a historical conflict involving Qatar(25%)

Qatar History and Society

Assignment Purpose

This assignment requires students to apply the Conflict Wheel and other conflict analysis tools to a significant historical conflict related to Qatar's political development, tribal relations, sovereignty, or regional position.

Choose a Historical Case Study

- The conflict between the Al Khalifa and Al Thani families in the 19th century.
- The Ottoman presence in Qatar and relations with local tribes.
- Qatar's relationship with the British Empire and the 1916 protection agreement.
- The conflict surrounding the Battle of Al Wajbah (1893).
- Battle of Al Wajbah: Territorial disputes between Qatar and neighboring states.
- The impact of tribal politics on state formation in Qatar.
- The 2017–2021 Gulf diplomatic crisis as a historical case study within modern Gulf history.

Paper Requirements

1,500–2,000
words

- Minimum 5 academic sources

- APA 7th referencing

- Critical analysis rather than description

Conflict Wheel: Introduction

Meta-tool that introduces 6 key dimensions of conflict

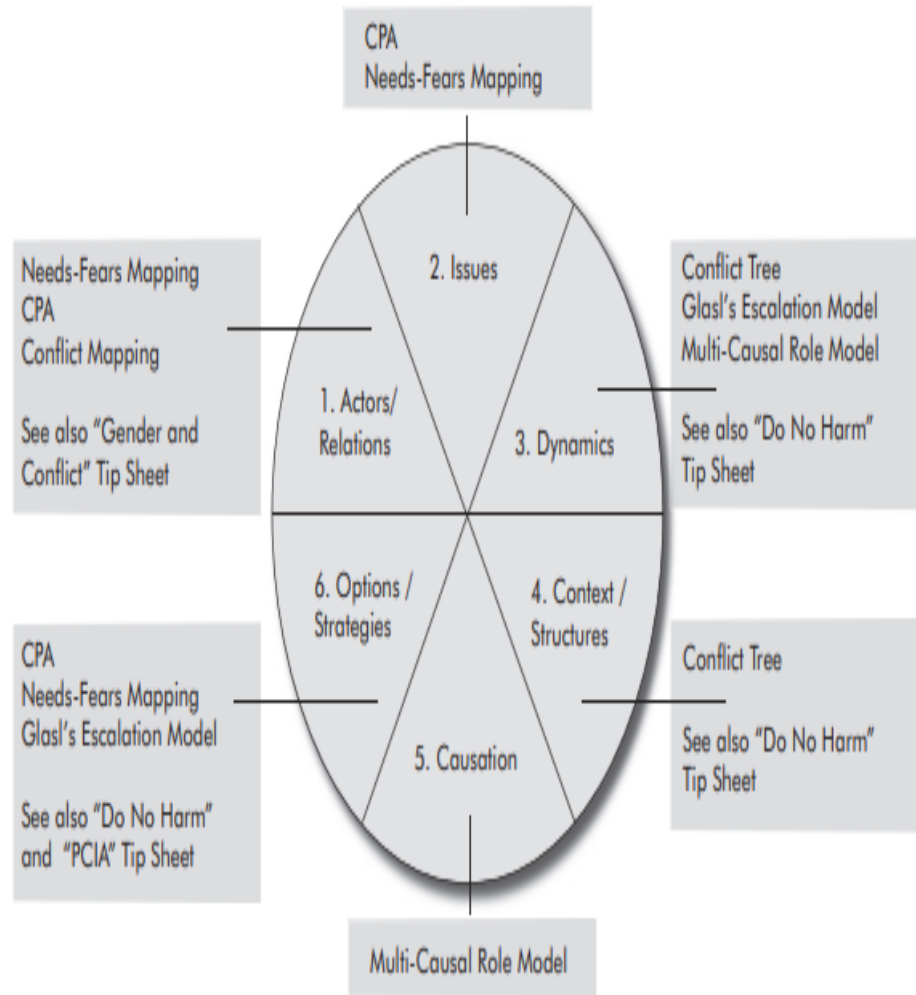

Useful for a first structured overview

Symbolizes wholeness and interaction

Helps choose other tools for deeper analysis

Conflict Wheel: Six Dimensions

1. Actors/Relations – parties involved directly or indirectly
2. Issues – what is being fought about
3. Dynamics – energy, temperament, escalation level
4. Context/Structures – political, economic, and social factors
5. Causation – multi-causal influences and root factors
6. Options/Strategies – how to address or transform conflict

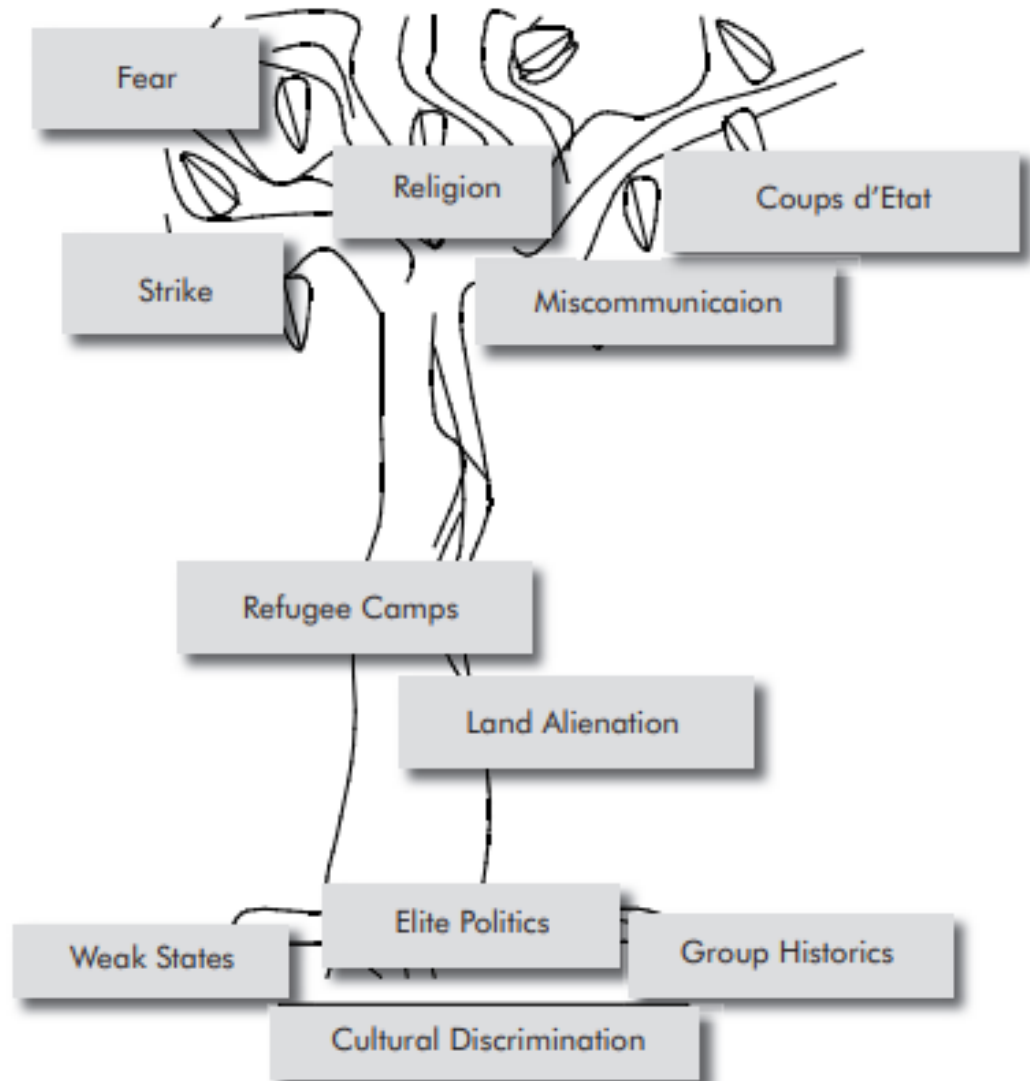

Conflict Tree: Introduction

- Visual and participatory sorting tool
- Shows interaction between deep-rooted causes, current issues, and visible symptoms
- Encourages differentiation of short-term vs long-term intervention strategies

Conflict Tree: Structure

- Roots: Structural, 'static' causes – poverty, discrimination, weak institutions
- Trunk: Manifest issues – the actual issues people discuss or fight about
- Branches/Leaves: Dynamic, reactive factors – fear, violence, miscommunication

How to Use the Conflict Tree

Step 1: Draw a tree with roots, trunk, and branches

Step 2: Participants write conflict factors on cards

Step 3: Cards are placed based on perception: root, issue, or dynamic

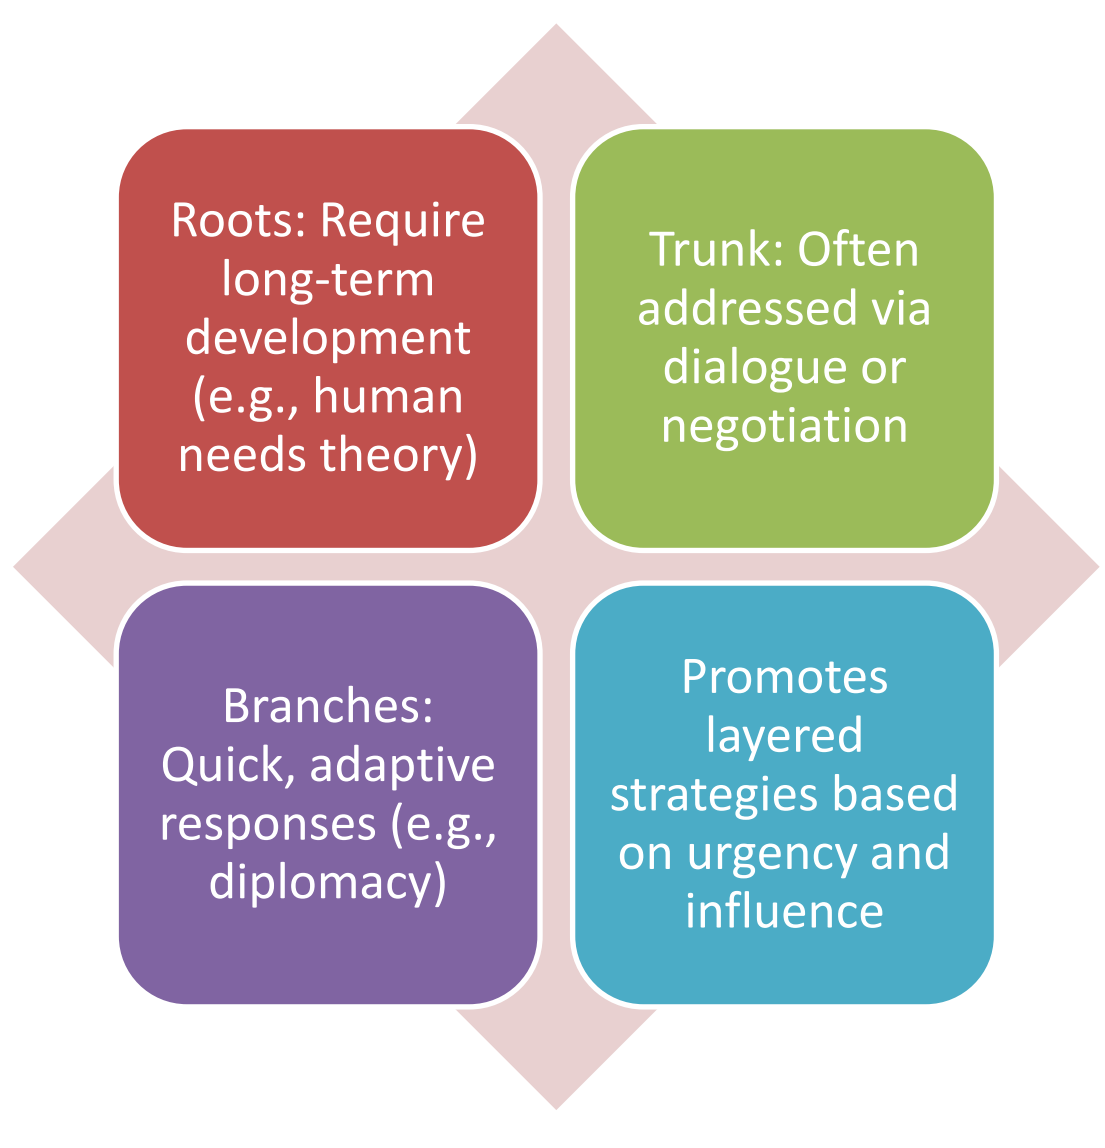

Step 4: Facilitate group discussion for shared understanding

Step 5: Visualize intervention points, like a 'bird' or 'worm' interacting with the tree

Strategic Insights from the Conflict Tree

Complementary Use of Both Tools

- Conflict Wheel gives a complete system overview
- Conflict Tree goes deep into cause-effect relationships
- Use together for comprehensive planning and mediation support

Visual Analysis Requirement

The diagrams may be:

- Drawn by hand and scanned,
- Created digitally using PowerPoint, Word, Canva, Lucid chart, Visio, or similar software.

Each diagram must:

- Be clearly labeled.
- Refer specifically to the chosen Qatar History case study.
- Be discussed and interpreted within the paper.
- Include a figure number and title.

Students who include diagrams without explaining their significance in the written analysis will receive limited credit.

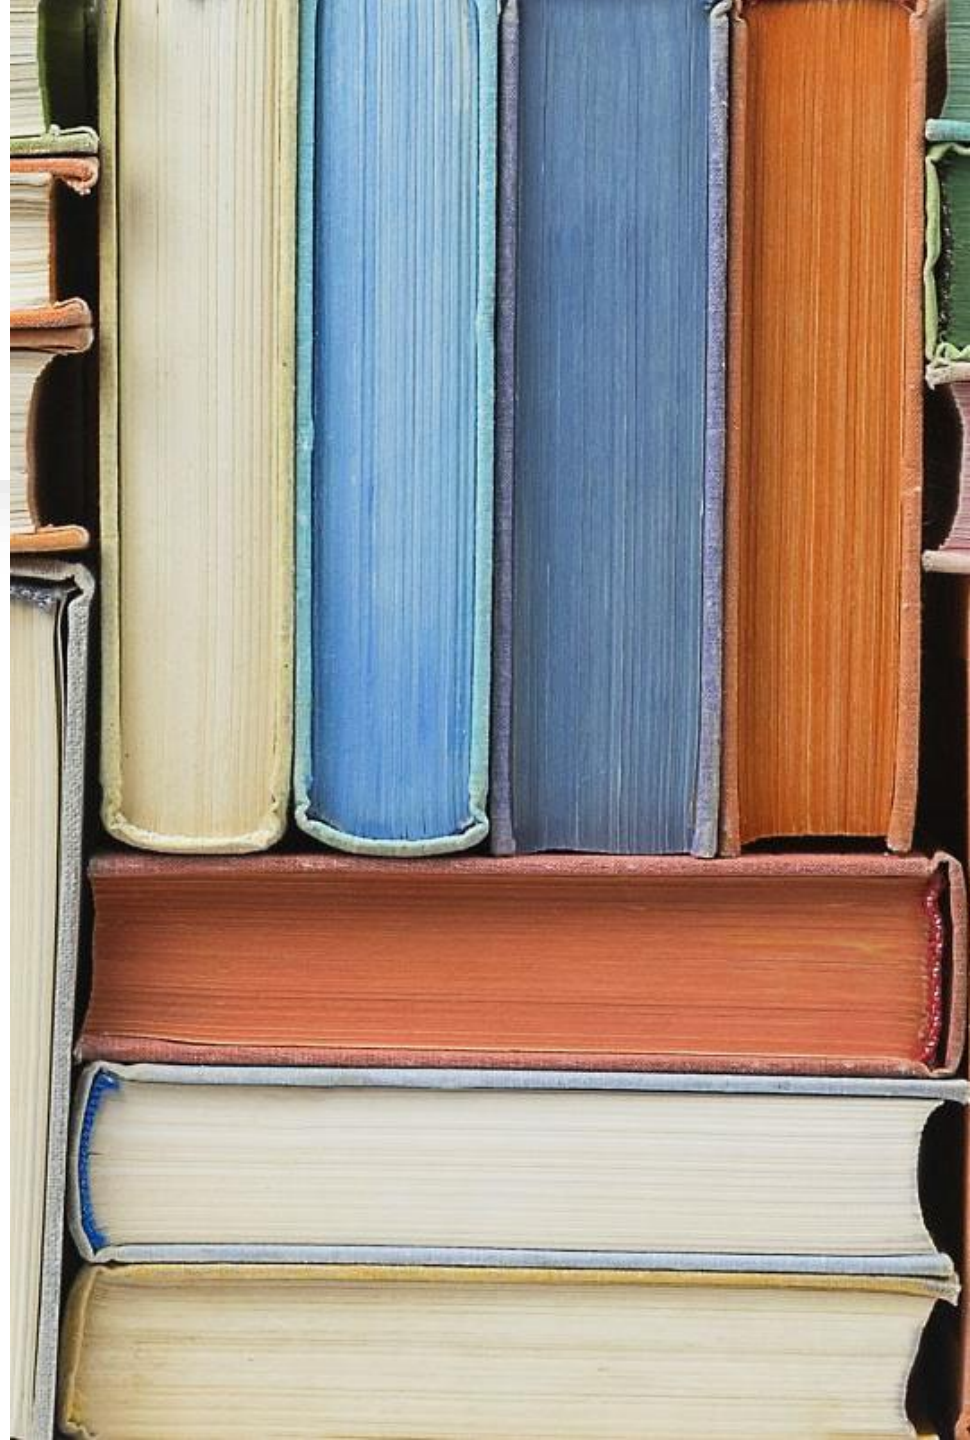

Academic Sources

Students must use at least five academic sources.

Acceptable academic sources include:

- Peer-reviewed journal articles
- Academic books from university or scholarly presses
- Chapters in edited academic volumes
- Theses or dissertations from accredited universities
- Reports from recognized research institutions or think tanks (used in addition to scholarly sources, not as a substitute for all five sources)

Encyclopedias, Wikipedia, blogs, social media, and unsourced websites do not count toward the five required academic sources.

Paper Structure

Historical Background (Introduction)

- Conflict Wheel Analysis

- Conflict Analysis Tools

- Critical Reflection

- Conclusion

AI and Academic Integrity

- AI may be used for brainstorming or editing
- Analysis and interpretation must be your own
- Include an AI Disclosure Statement
- Fabricated sources are not acceptable

Grading Rubric (25 Marks)

Criteria	Marks
Historical Background and Accuracy	4
Conflict Wheel Analysis (Six Dimensions)	6
Application of Additional Conflict Analysis Tools	4
Quality and Accuracy of Visual Diagrams	3
Critical Reflection and Historical Significance	3
Academic Sources and Referencing (Minimum 5 Academic Sources)	3
Academic Integrity, AI Disclosure, and Original Analysis	2
Total	25
